

# THE 72 NAMES OF GOD

Technology for the Soul

## We hear . . .

THAT Kabbalah queens **Madonna**, **Demi Moore** and **Sandra Bernhard** will help **Rabbi Yehuda Berg** celebrate his new book, "The 72 Names of God," at the New Museum tonight . . .

## *Madonna gives all the hype a rest*

**MADONNA** finally took a break from promoting her new album, "American Life," on Wednesday night to throw a private party at **Ian Schrager's** soon-to-be-opened Paramount Bar. Guests included hubby **Guy Ritchie**, **Stella McCartney**, **Chris Rock**, **Michael Moore**, **Sandra Bernhard** and **Ingrid Casares**. We're told that oversized Oscar-winner Moore was among the revelers boogying with

Madonna on the dance floor to **Peter Rauhofer's** club remix of "American Life." Rumor has it that Madonna will perform a surprise concert at Rauhofer's birthday party tomorrow night at the Roxy, where he's the house deejay. Last night, Madonna, Bernhard and **Demi Moore** feted Kabbalah cleric **Rabbi Yehuda Berg's** new book, "The 72 Names of God," at the New Museum.
